TLF-3-* *	3"	10'
TLF-4-* *	4"	10'
TLF-6-* *	6"	10'

DESCRIPTION

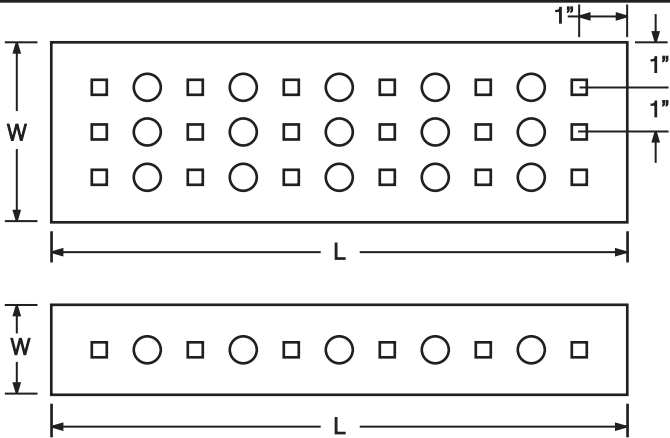

The TechLine Flat Bar is used for long runs of instrumentation cable or tubing. TechLine Flat Bar can also be cut and used for flat splices. TechLine Flat Bar is a vented bottom product. The holes alternate between 9/16" dia. round and 5/16" square. This allows for the use of either carriage bolts or hex bolts.
