Raceway Channel

Raceway Channel			
		 Upon Request	
PART #	W	D	L
TLA-2-2-* *	2"	2"	20'
TLA-3-3-* *	3"	3"	20'

DESCRIPTION

The TechLine Raceway Angle is used for protecting long runs of instrumentation cable or tubing. TechLine angle is a perforated product. The holes alternate between 9/16" dia. round and 5/16" square. This allows for the use of either carriage bolts or hex bolts. Techline channel is a bolt together system. Hardware sold separately. This channel is intended to be used with the corresponding Techline fittings
